Left Hand Guitars

Acoustic guitars – add 10% to List
 Electric guitars – add 15% to List

Electric/Acoustic Guitars – All Guild acoustic guitars will accept the Guild Bridge Transducer. The Guild Transducer vibrates with the saddle of the guitar, and transforms this acoustic energy into a signal for your amplifier or P.A. All Guild pickups are installed with an EQ tone control and master volume control.
 Guild Transducer/Preamp system \$150

All Guild guitars are built by hand, in our factory. Because of Guild's continuing commitment to producing the highest quality guitars in the world, specifications are subject to change.
