ELECTRIC/ACOUSTIC GUITARS

The New Guild Flattop pickup system is available on all Guild acoustics. This system features new crystal slabs which bend with the bridge saddle vibration, accurately tracking its motion and reproducing the natural sound of the guitar. The tone control is independent and will not affect overall volume. This pickup offers excellent versatility, making it possible to achieve Country, Jazz and Rock sounds. The Guild Pickup delivers a balanced response regardless of string gauge used.

Guild Pickup System Add \$150
